A Summarization and Simplification System

Lexical Simplification

When the leg is released, the popcorn moves like a gymnast somersaulting.

When the leg is released , the popcorn moves like **an athlete flip**.

Syntactic Simplification

A succession of steadily more powerful and flexible computing devices were constructed in the 1930s and 1940s , gradually adding the key features that are seen in modern computers .

More powerful and simpler computers were made in the 1930s and 1940s .

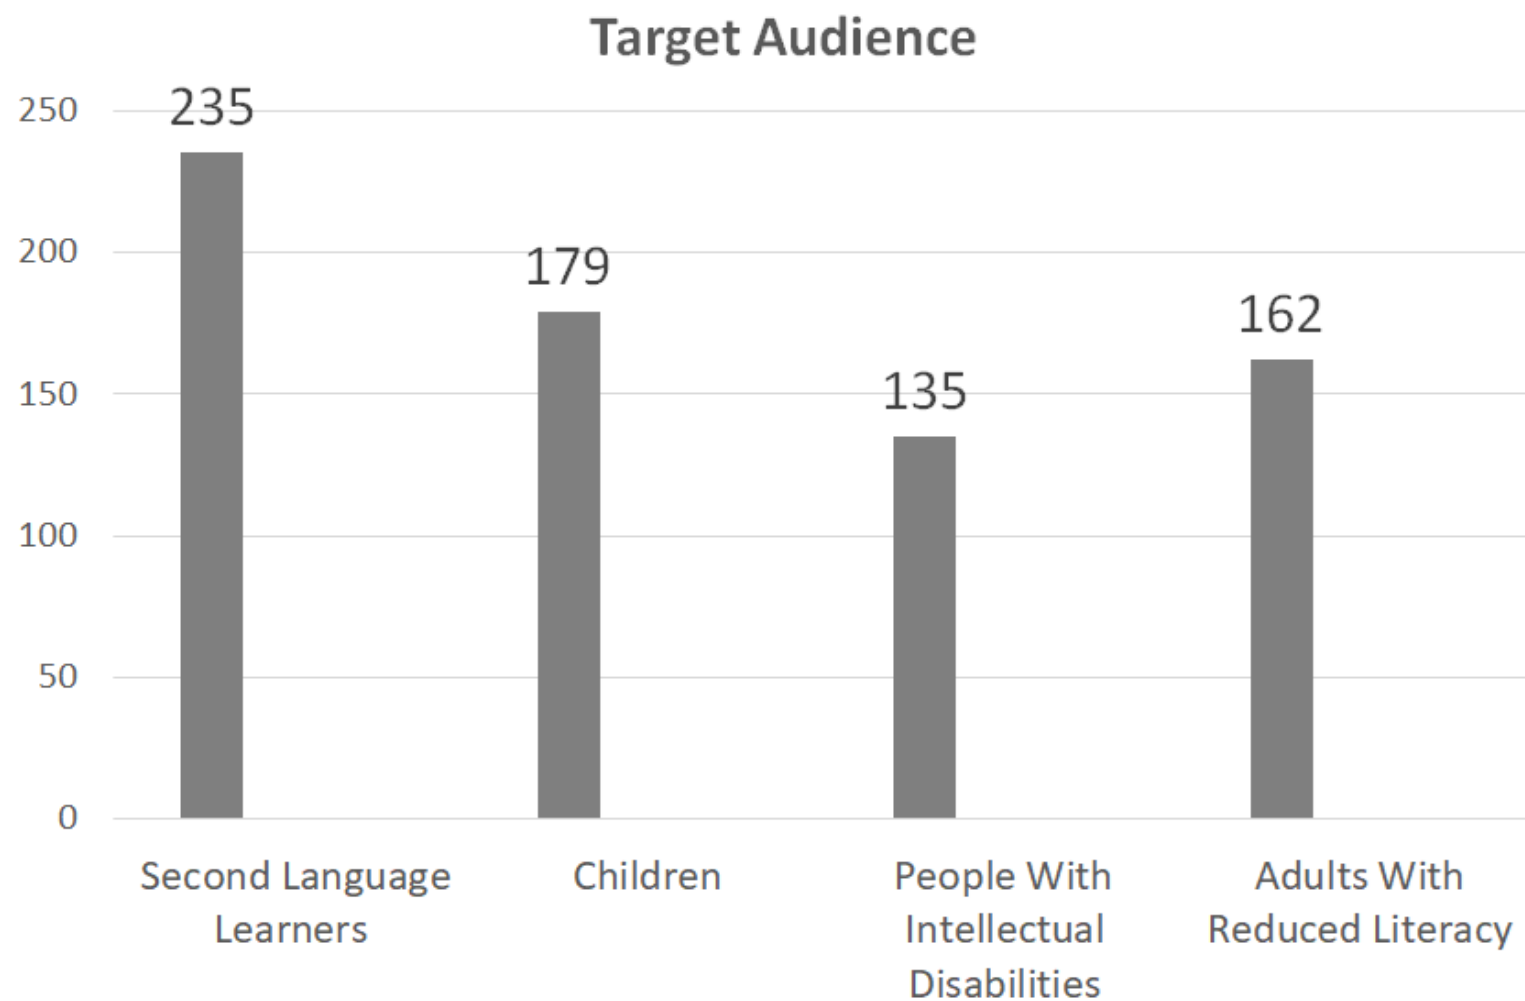

Text Summarization

'Alcohol' is taken in almost all cool and cold climates, and to a very much less extent in hot ones. Thus, it is taken by people who live in the Himalaya Mountains, but not nearly so much by those who live in the plains of India. Alcohol is not necessary in any way to anybody. The regular use of alcohol, even in small quantities, tends to cause mischief in many ways to various organs of the body. It affects the liver, it weakens the mental powers, and lessens the general energy of the body. In addition, damage to the central nervous system and peripheral nervous system can occur from chronic alcohol abuse..

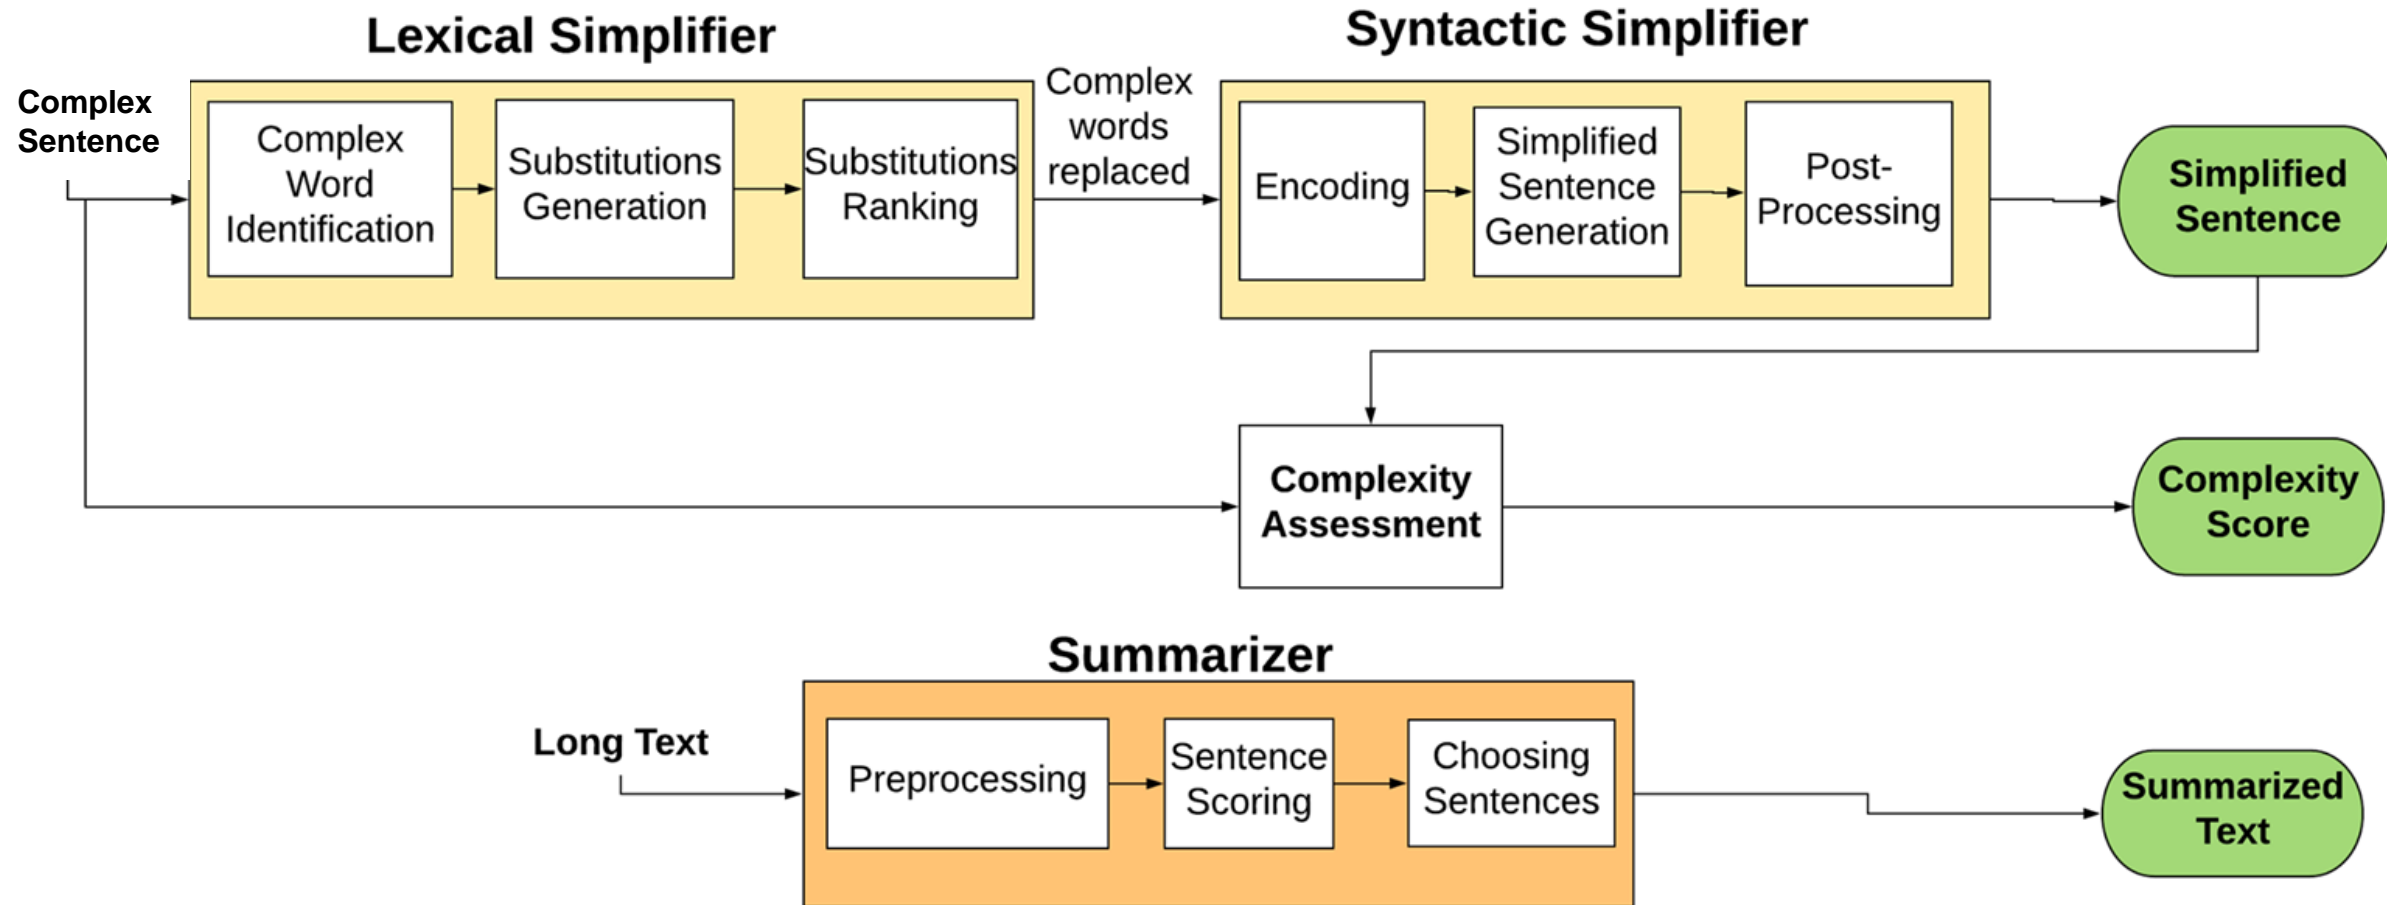

Alcohol' is taken in almost all cool and cold climates, and to a very much less extent in hot ones. Alcohol is not necessary in any way to anybody. The regular use of alcohol, even in small quantities, tends to cause mischief in many ways to various organs of the body.

Target Audience

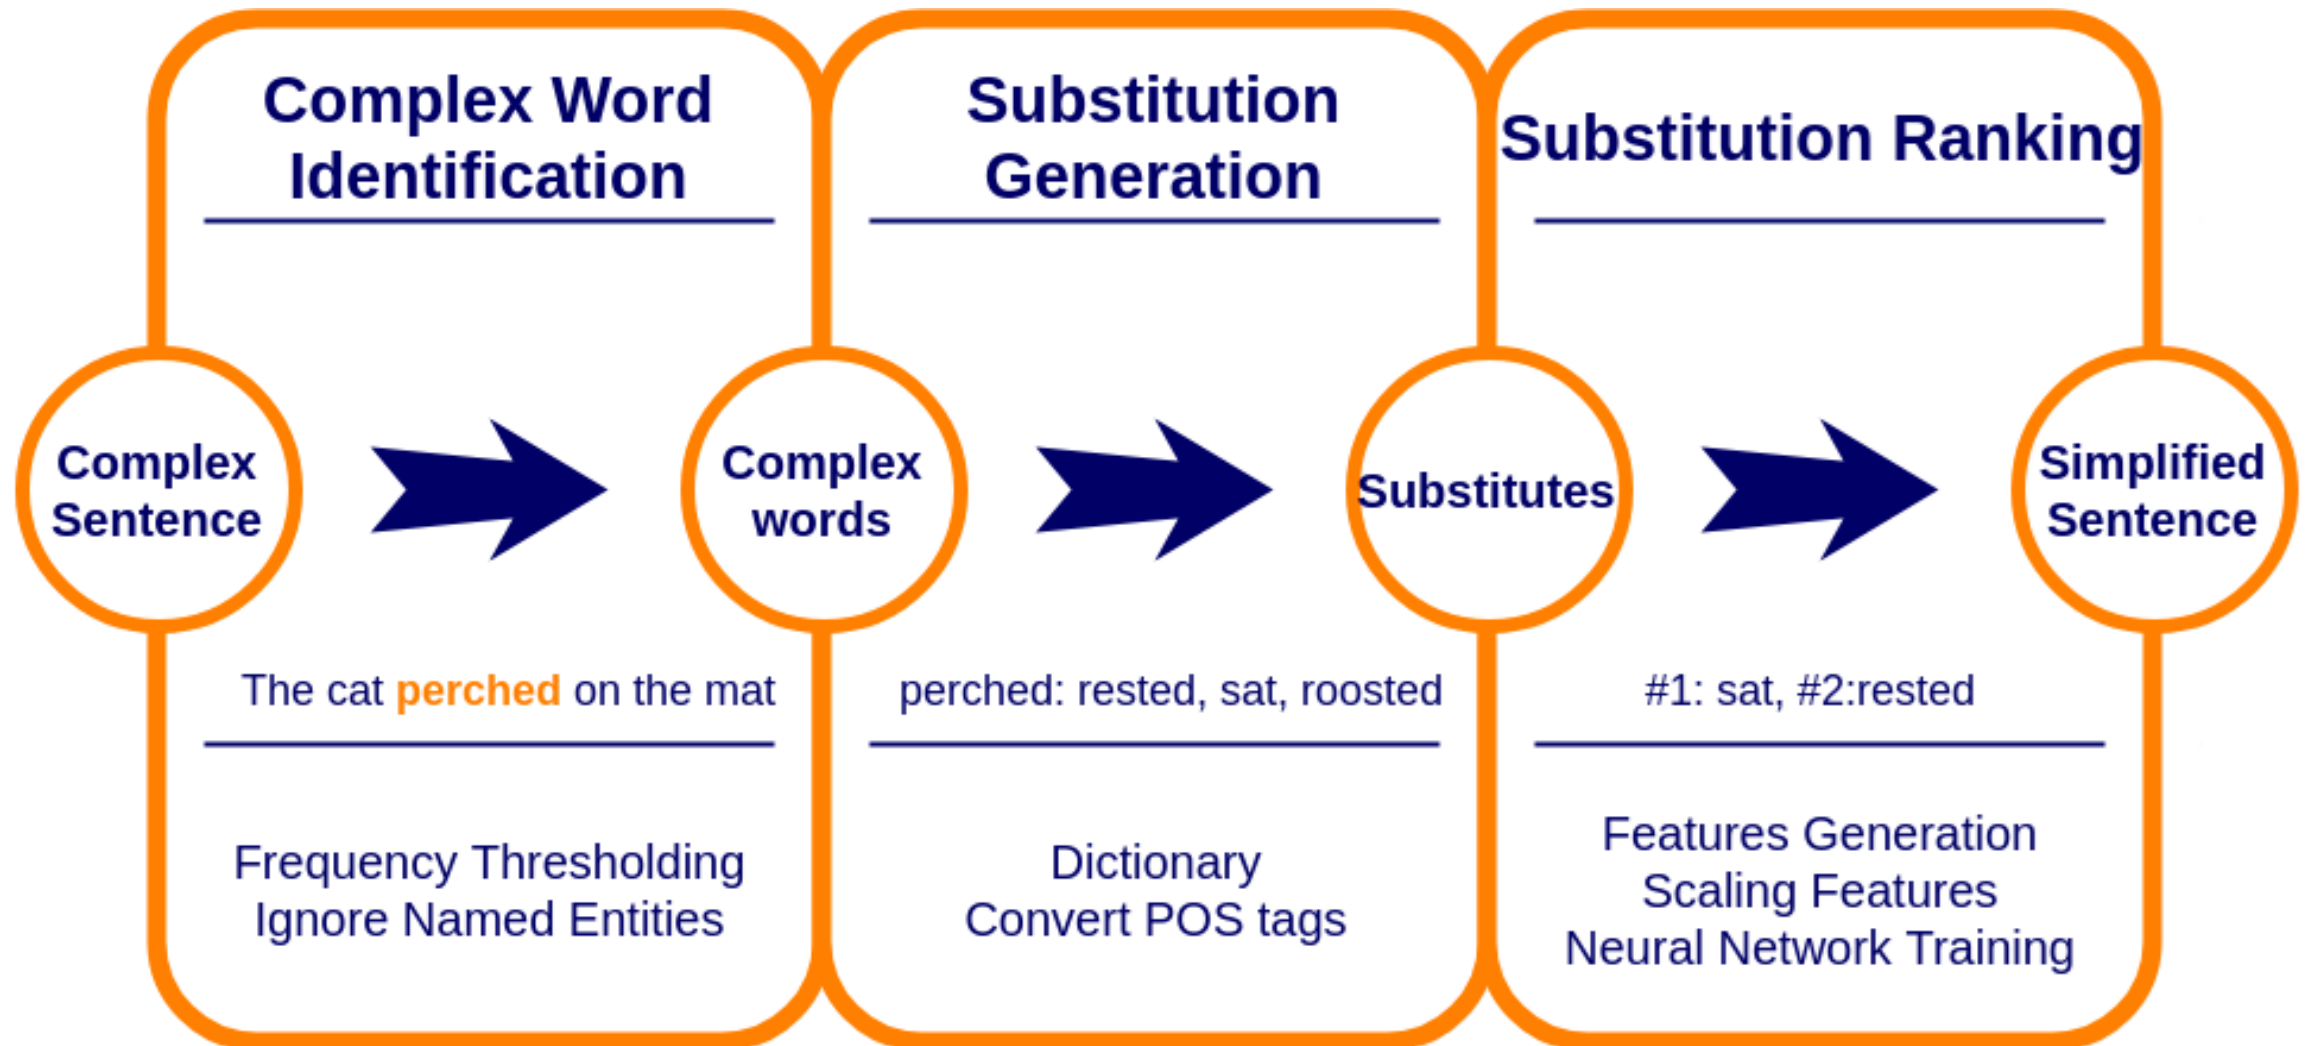

System Design Overview

System Architecture

Lexical Simplification

Lexical Simplification

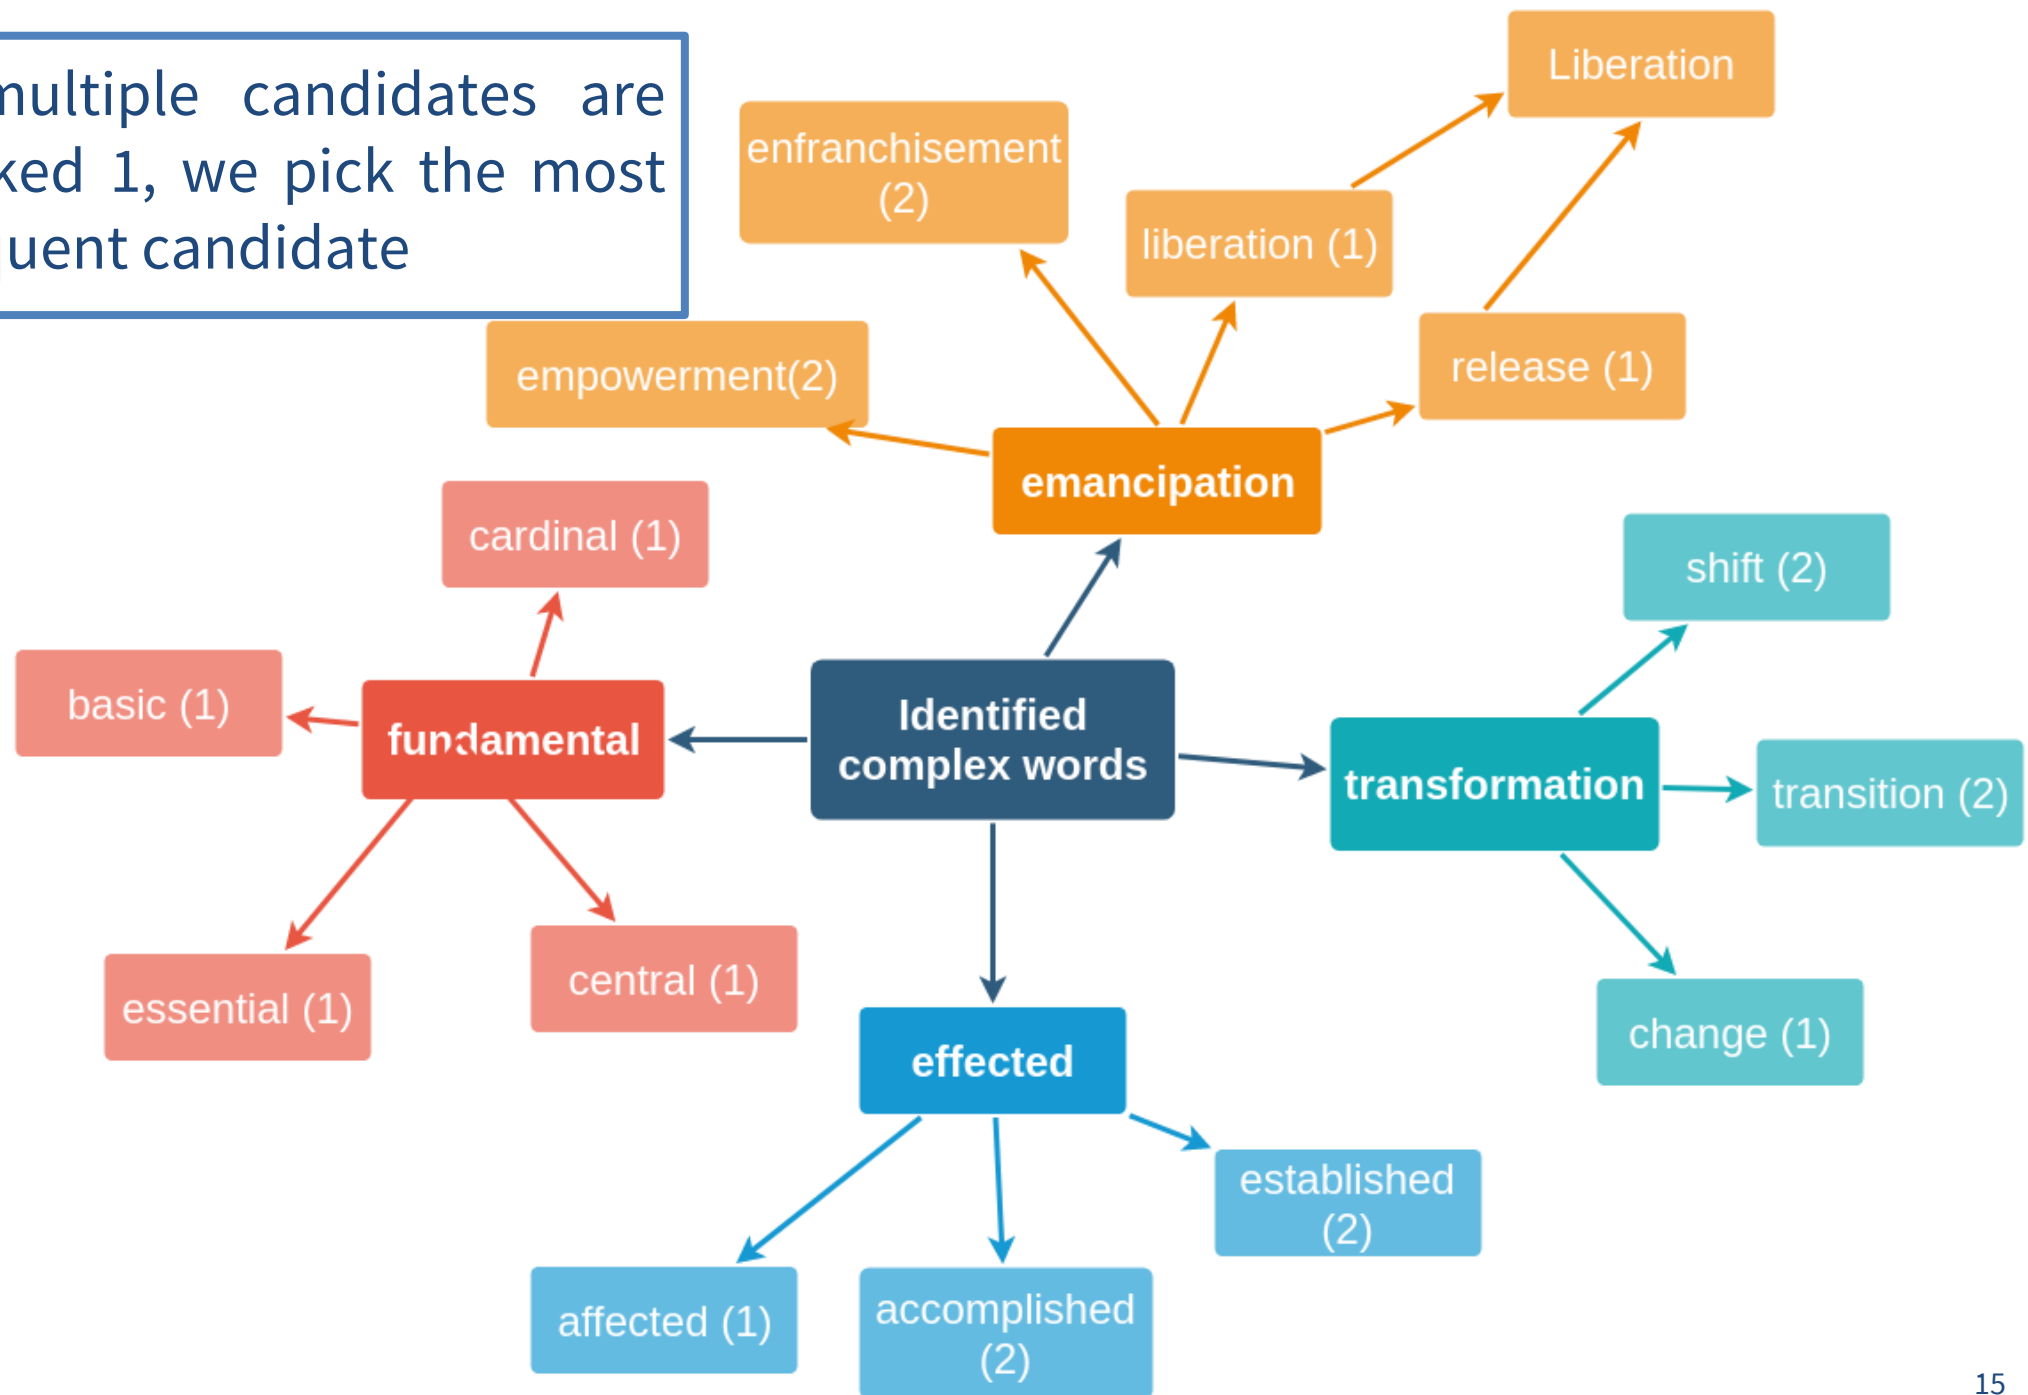

Example

Step 1: Complex Word Identification

The **emancipation** of women can only be completed when a **fundamental transformation** of living is **effected**.

If multiple candidates are ranked 1, we pick the most frequent candidate

Output

The **emancipation** of women can only be completed when a **fundamental transformation** of living is **effected**.

The **liberation** of women can only be completed when an **essential change** of living is **affected**

Benchmarking Results

- TRank@1: the proportion of times in which the highest ranked candidate in BenchLS dataset was ranked first by the ranker (Gustavo H. Paetzold and Lucia Specia, 2016)

Limitations

Input

Police used tear gas , dogs and clubs on the unarmed protesters .

Unhappy with being called to task for declining scores , political educators complained that the tests were unfair to some , so they watered them down (a phrasal verb)

System output

Police used tear gas , dogs and clubs on the **armed supporters** .

Unhappy with being called to task for reduction scores , political actors complaints that the tests were unfair to some , so they **flooded** them down

Syntactic Simplification

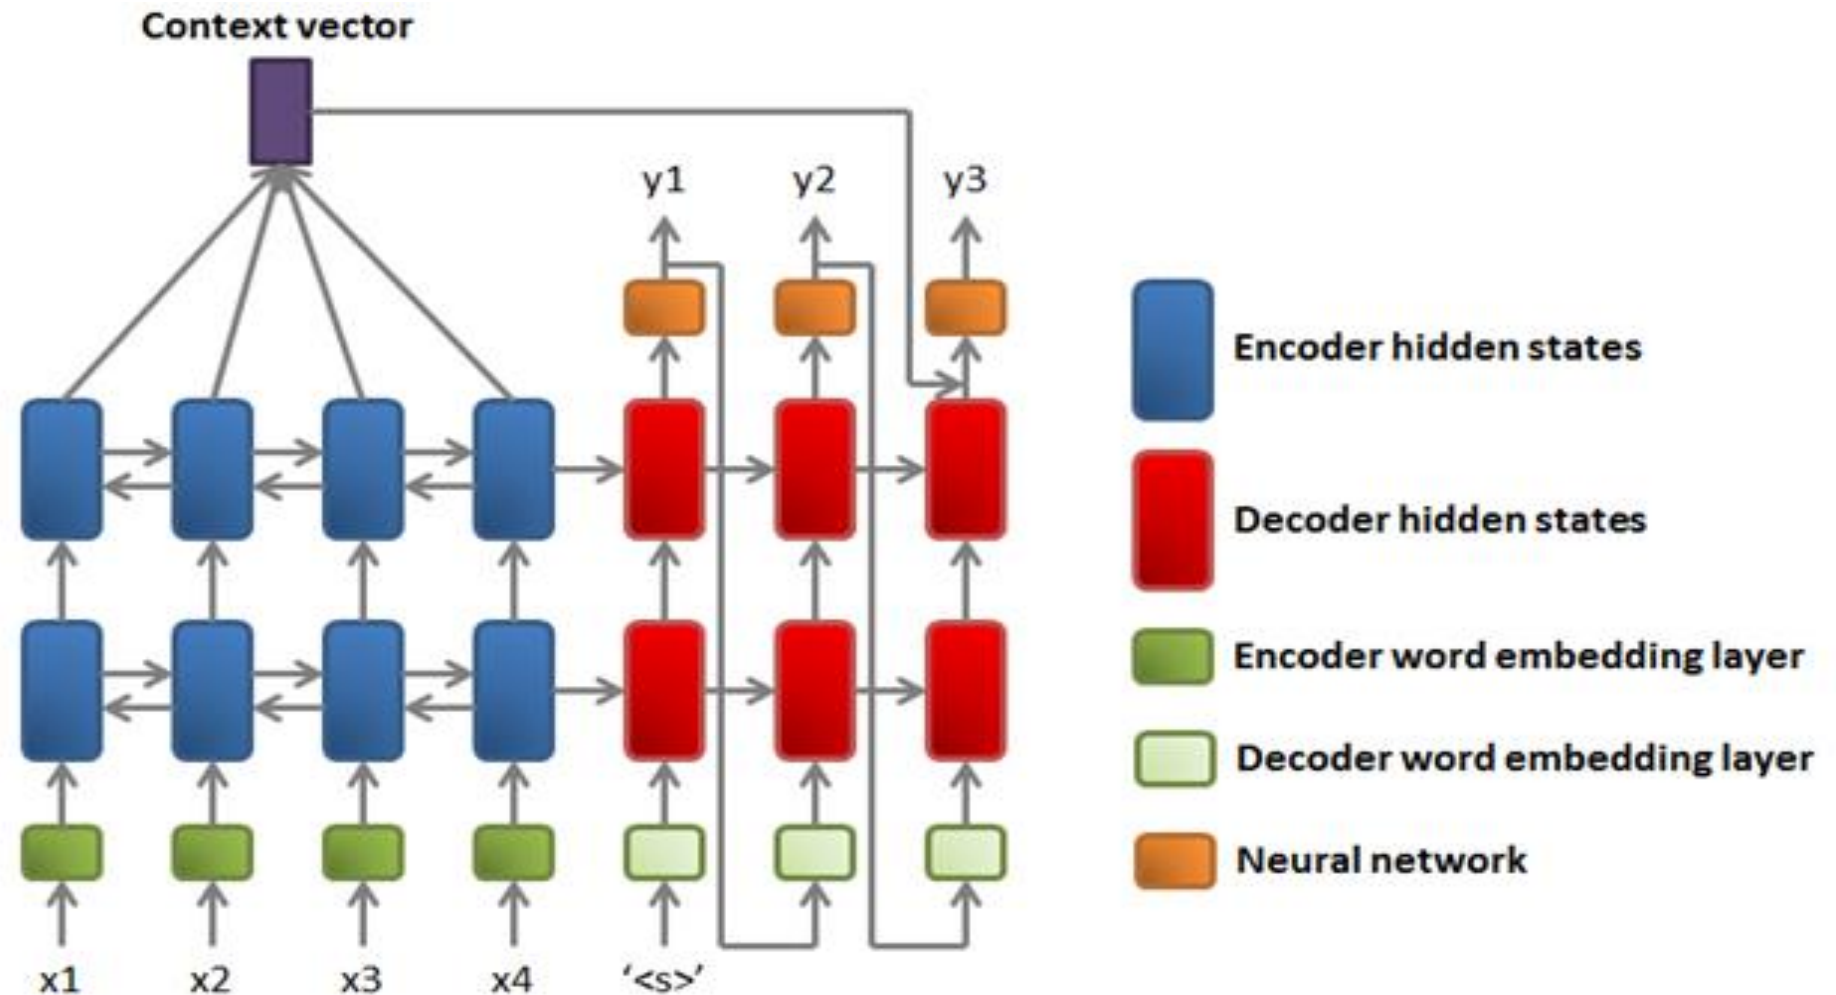

Syntactic Simplification

3 main operations: Copying , Deletion , Substitution

Complex	A succession of steadily more powerful and flexible computing devices were constructed in the 1930s and 1940s , gradually adding the key features that are seen in modern computers .
Simple	More powerful and simpler computers were made in the 1930s and 1940s .

System Architecture

Attention-based
encoder decoder
model with LSTMs

System Architecture

→ RNN

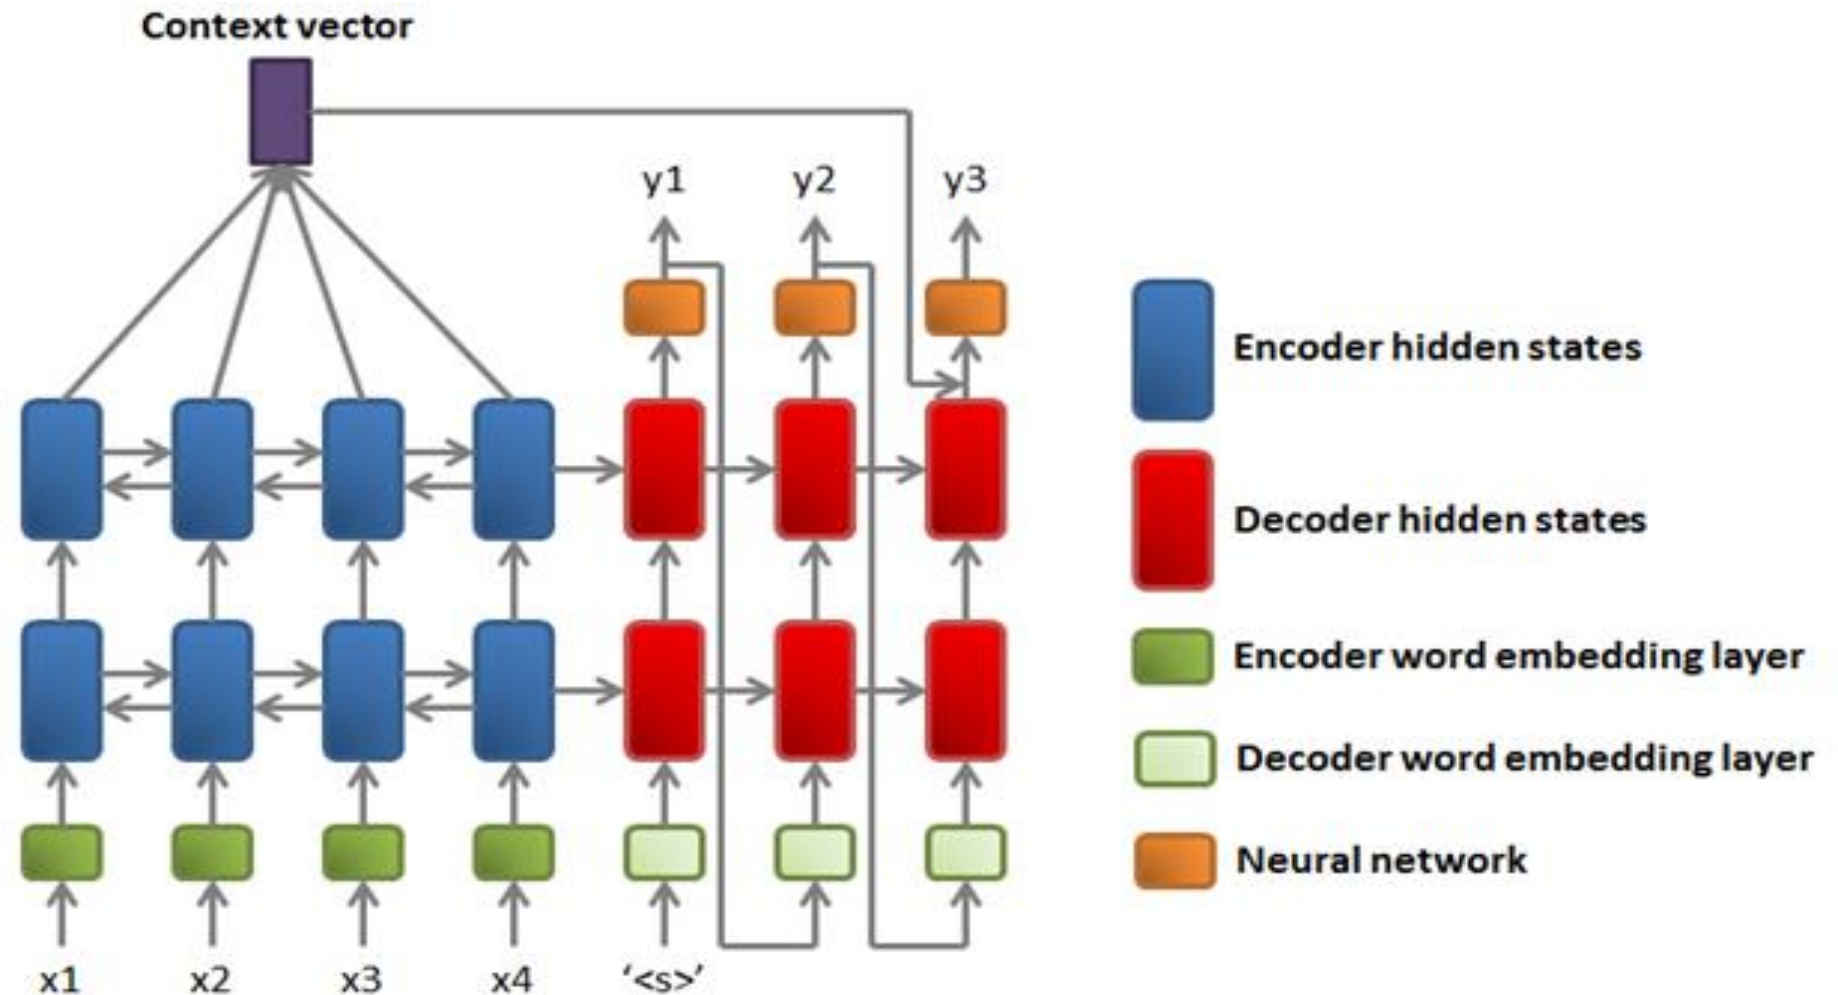

Encoder: Bi-Directional LSTMs

Decoder: Uni-Directional LSTMs

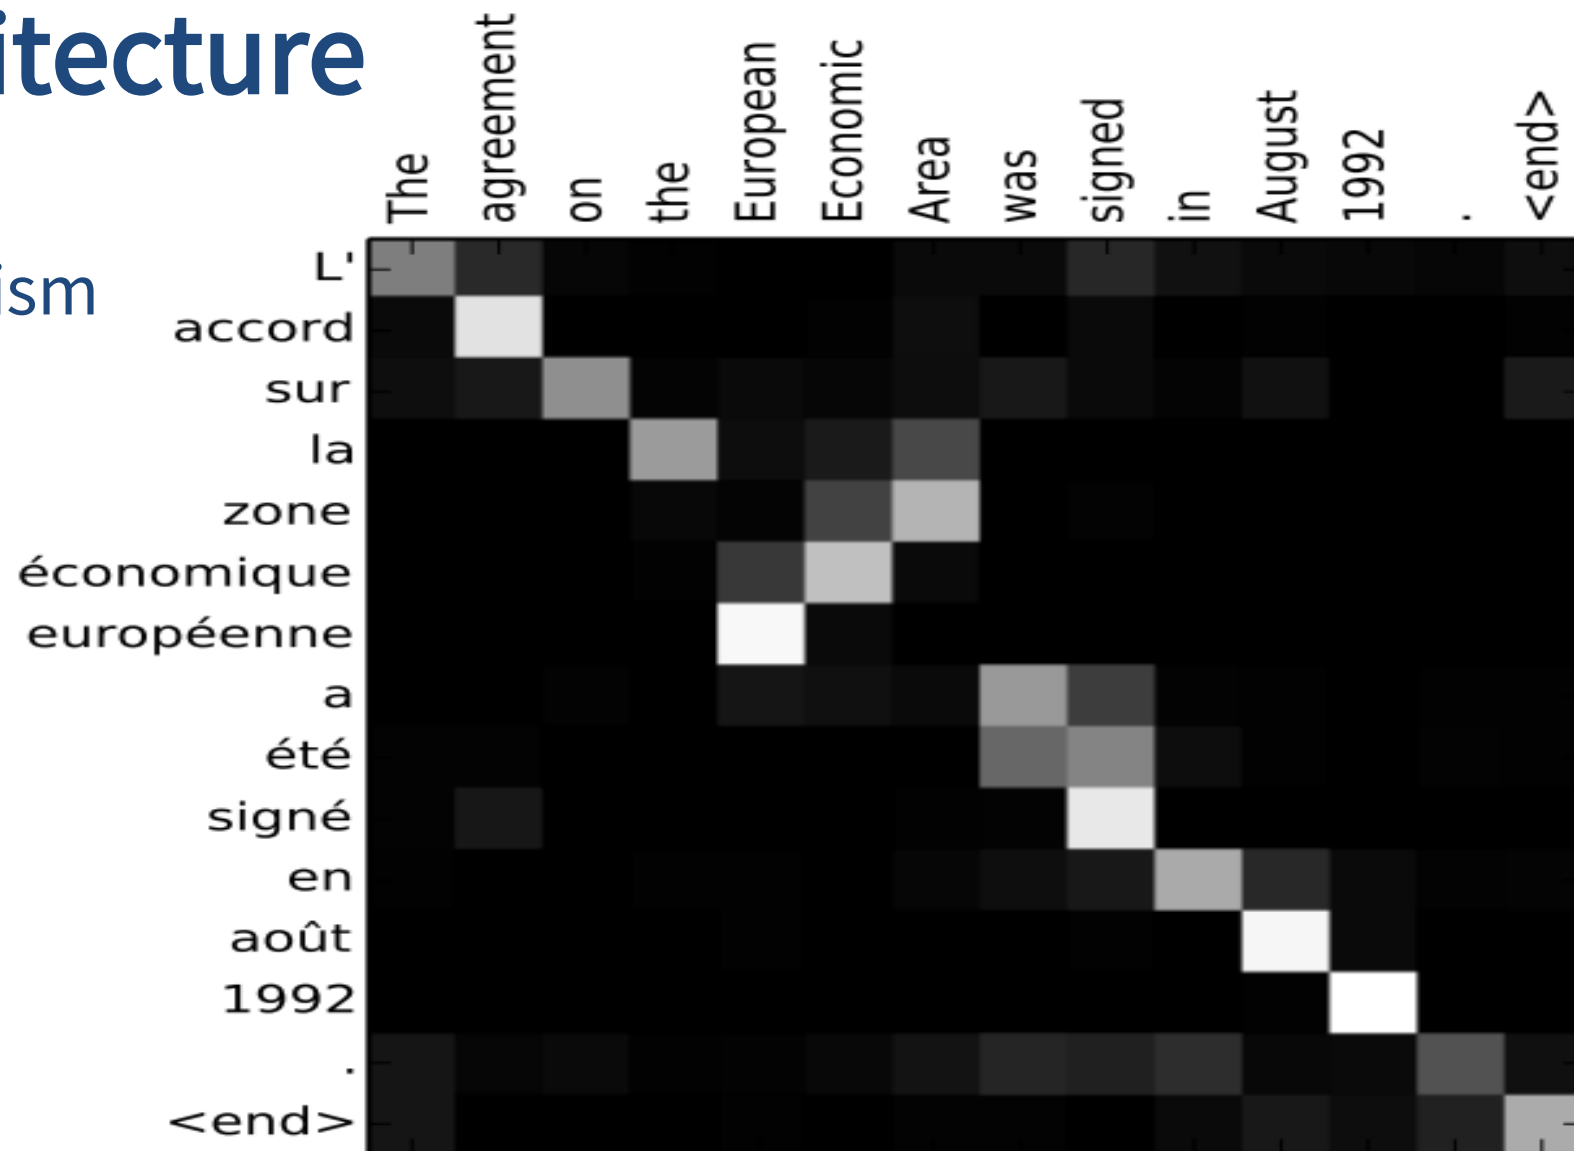

System Architecture

encoder decoder
model with LSTMs

System Architecture

→ Attention Mechanism

Training Process

**Supervised
Learning**

**Reinforcement
Learning**

Training Process

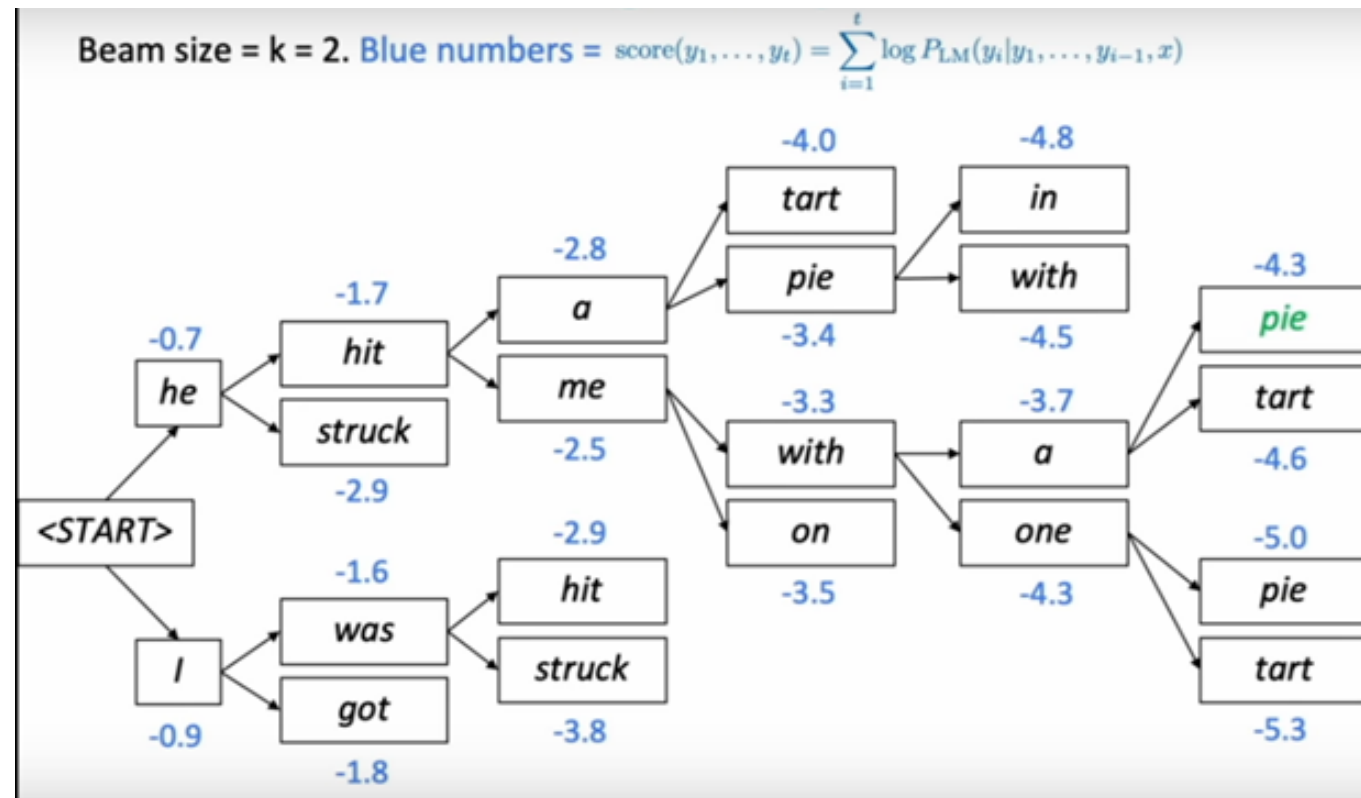

→ Reinforcement Learning

$$r(\hat{Y}) = \lambda^S r^S(X, \hat{Y}, Y) + \lambda^R r^R(\hat{Y}, Y)$$

r^S : SARI score

$$r^R = \beta_1 \text{ROUGE-2}(\hat{Y}, Y) + (1 - \beta_1) \text{ROUGE-L}(\hat{Y}, Y)$$

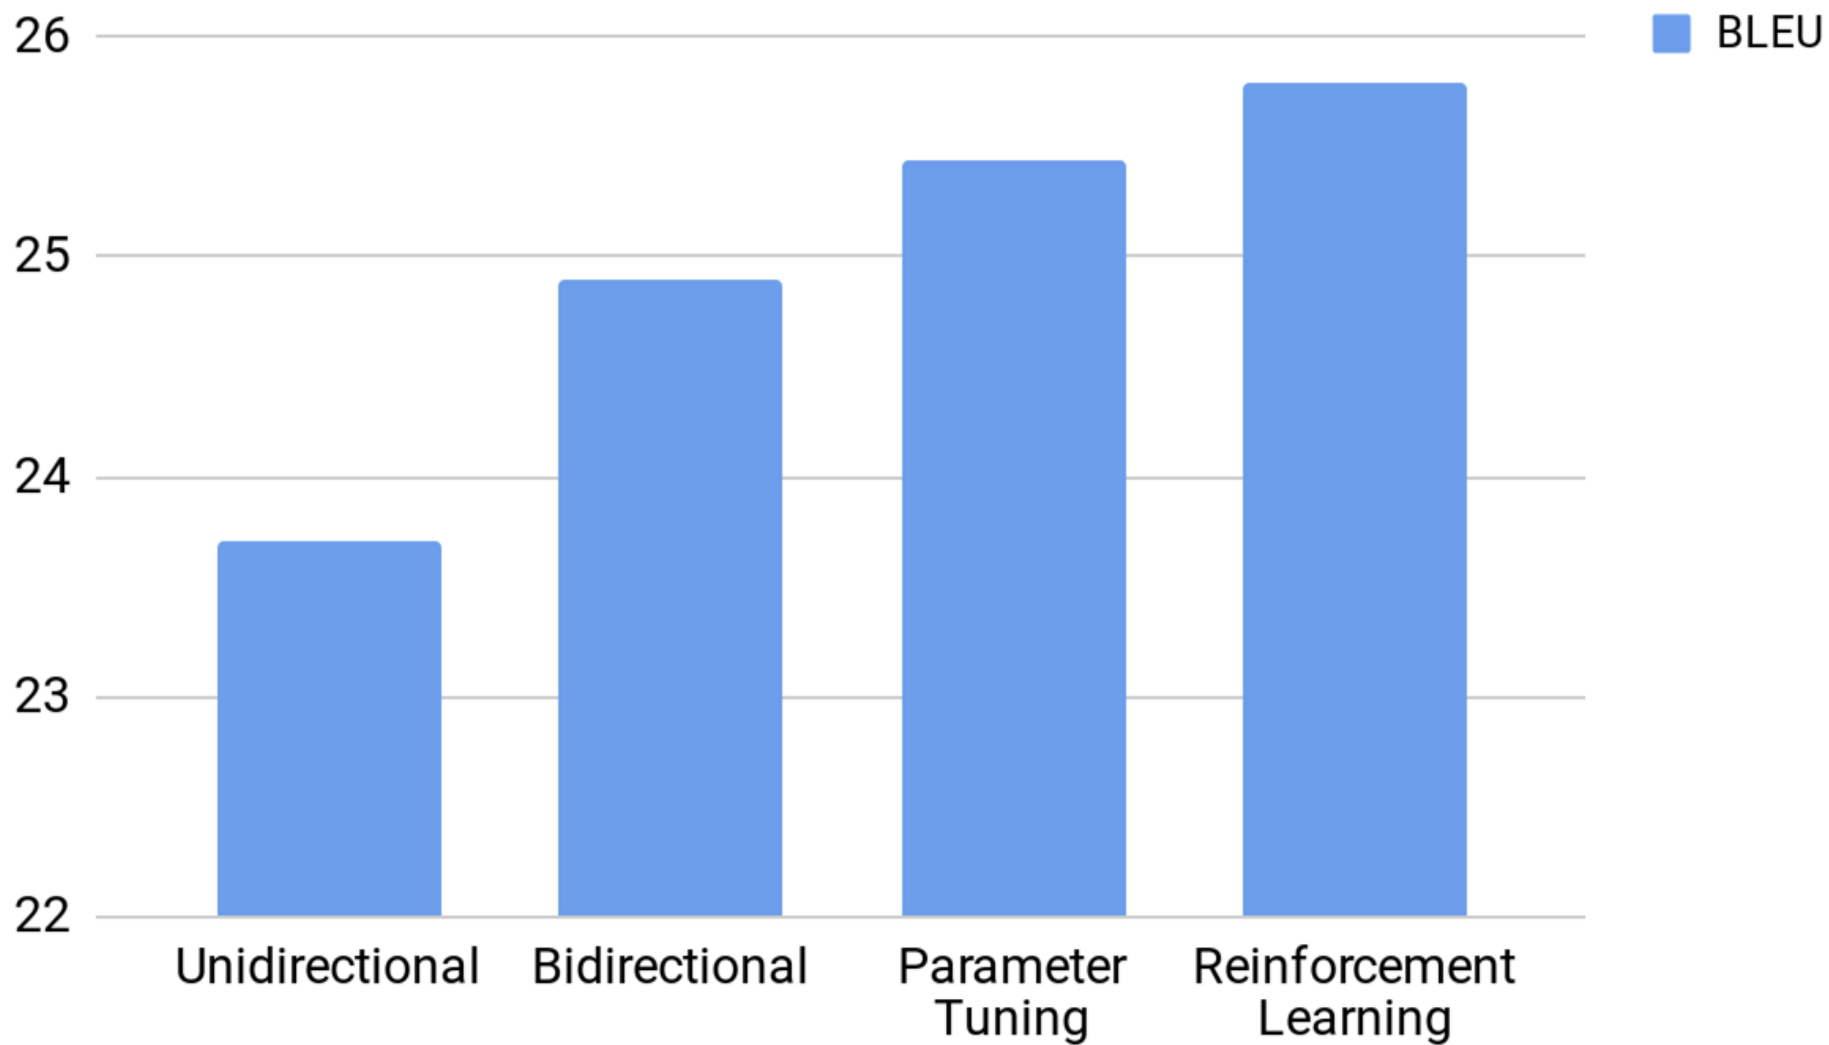

Inference: Beam Search

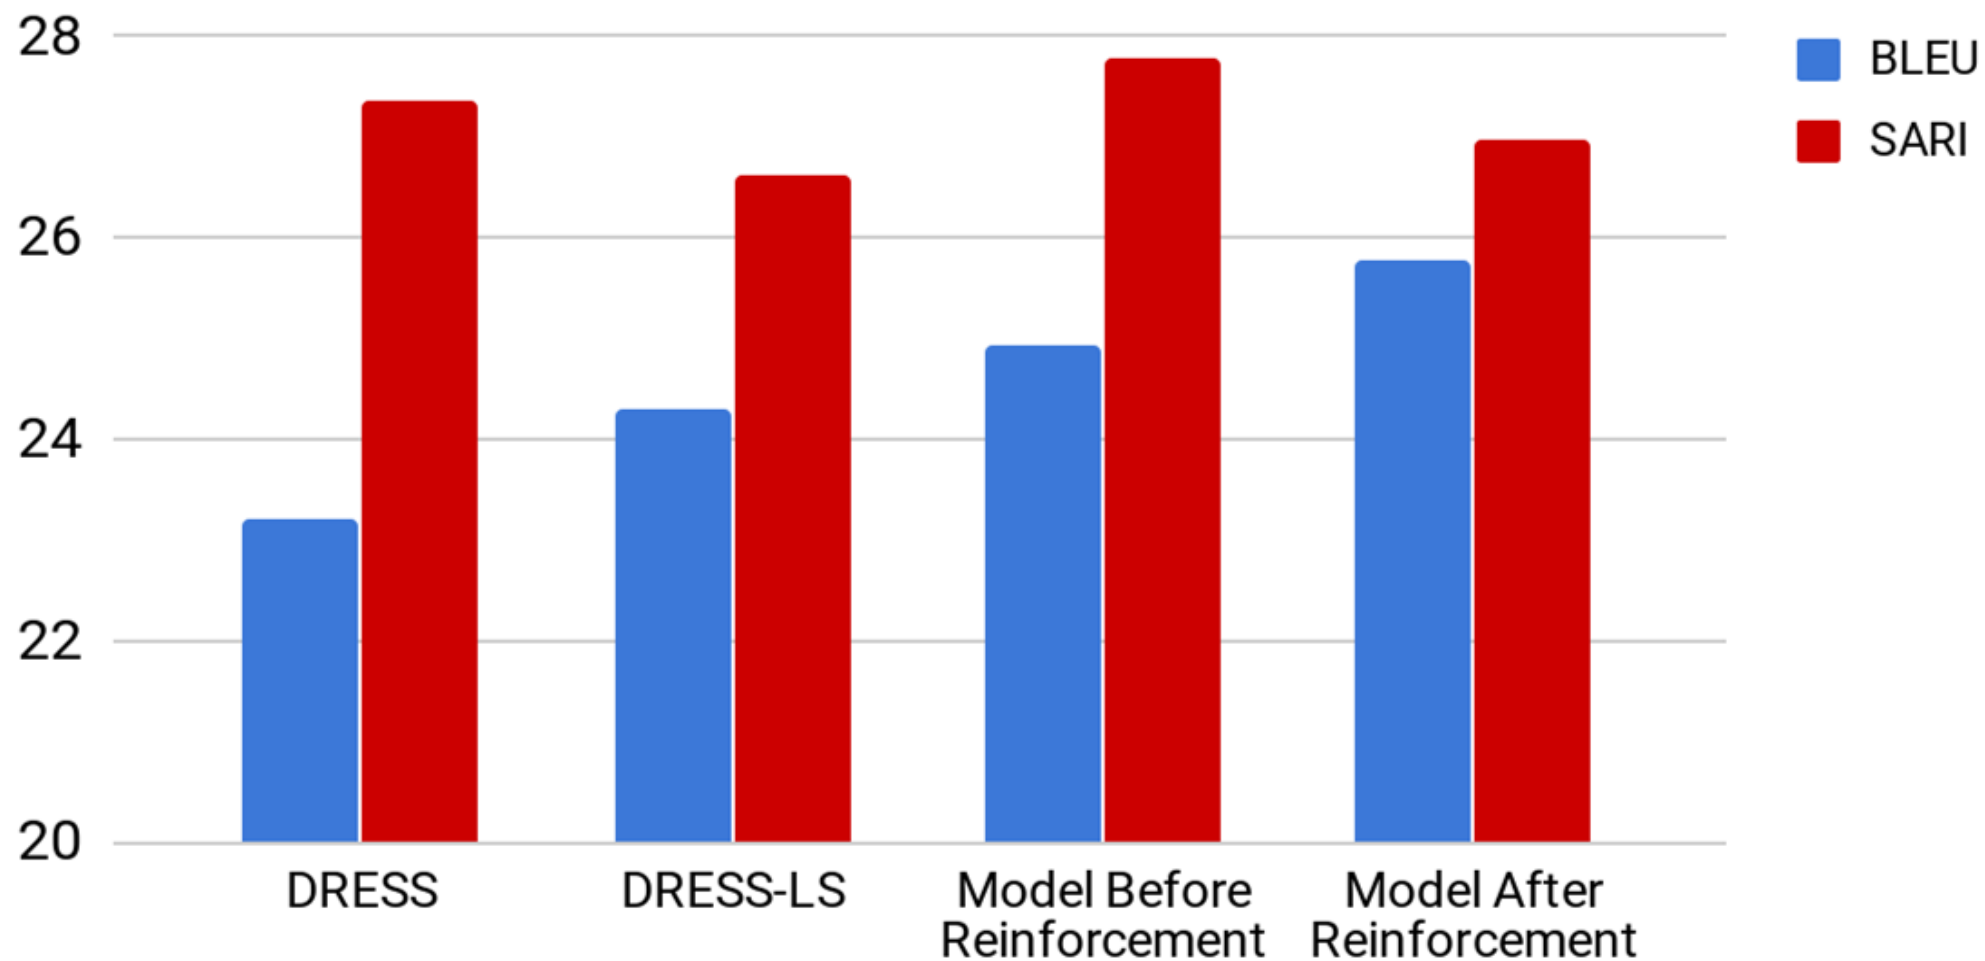

Post-Processing: Unknown Words (UNK) Replacement

Before UNK Replacement	Now <unk> helps <unk> with her flips .
After UNK Replacement	Now Kory helps Trinity with her flips .

Experimentation Results

Syntatic Simplification Results

Limitations

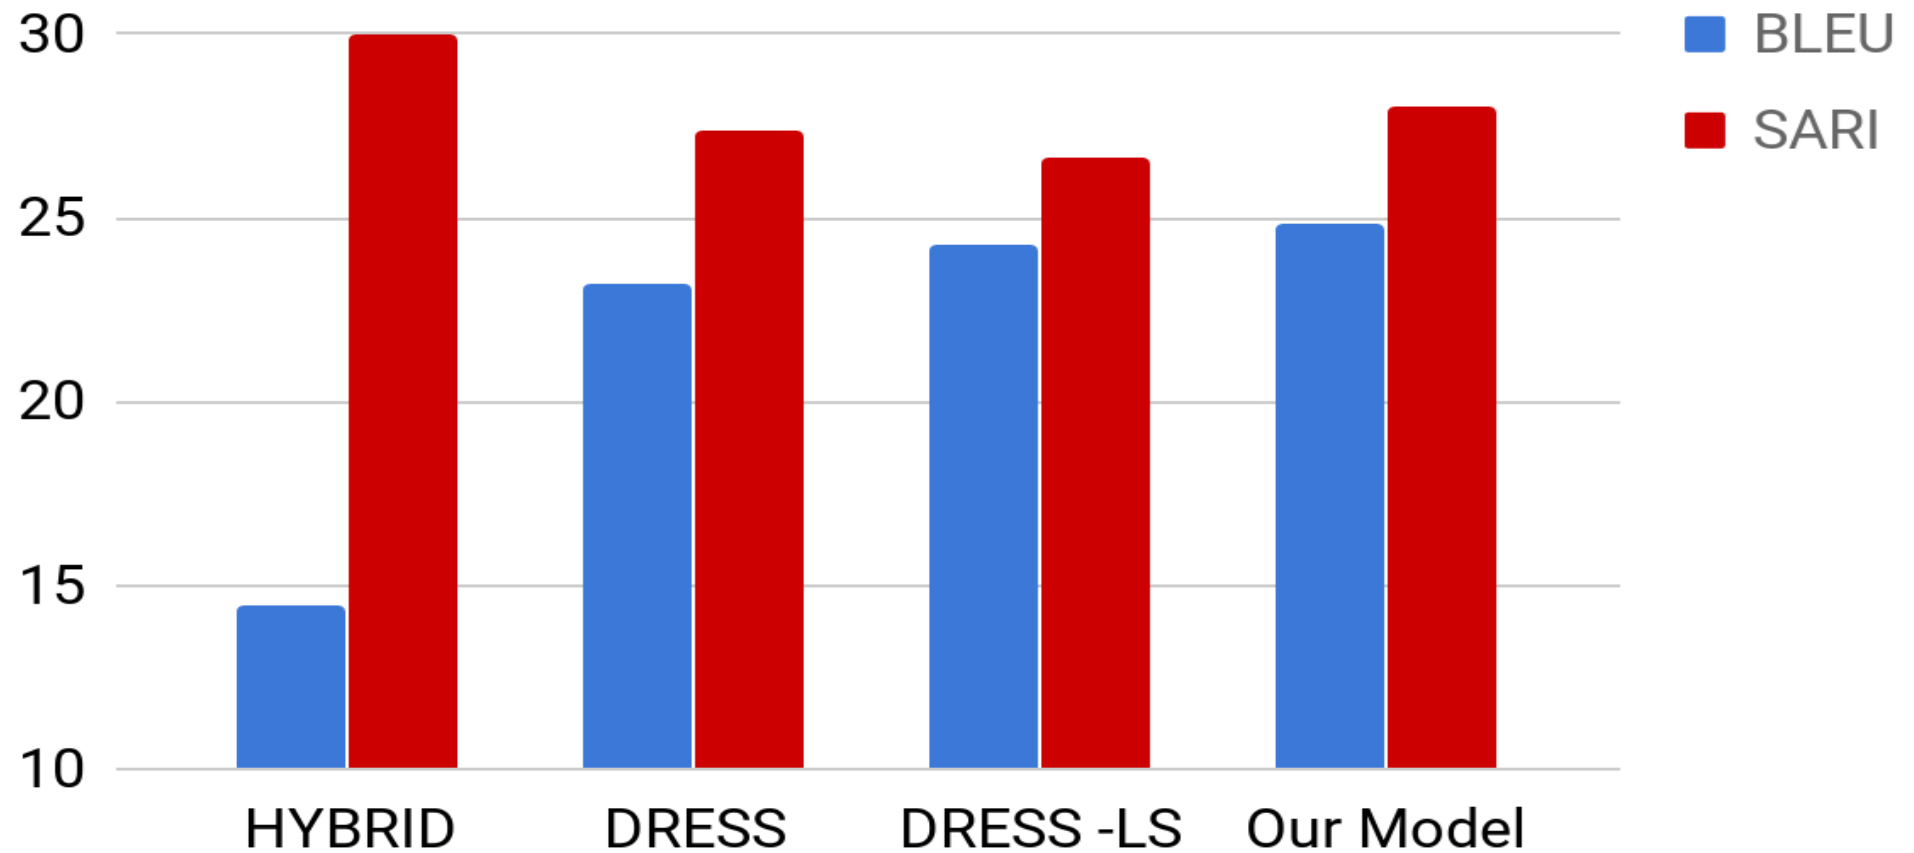

Input	System output
Gary Goddard is the founder of Gary Goddard Entertainment .	Gary Goddard is the founder of the British Goddard Entertainment .
When the kernel gets very hot - above 212 degrees Fahrenheit - the water inside turns to steam , which is a gas .	When the kernel gets very hot .

Sentence Simplification

Simplification Pipeline

Source	The popcorn moves like a gymnast doing a somersault .
Lexical followed by Syntactic Simplification	The corn moves like an athlete doing a flip .
Syntactic followed by Lexical Simplification	The ice moves like an athlete .

Model Scores

Summarization

Extractive Summarization

'Alcohol' is taken in almost all cool and cold climates, and to a very much less extent in hot ones. Thus, it is taken by people who live in the Himalaya Mountains, but not nearly so much by those who live in the plains of India. Alcohol is not necessary in any way to anybody. The regular use of alcohol, even in small quantities, tends to cause mischief in many ways to various organs of the body. It affects the liver, it weakens the mental powers, and lessens the general energy of the body. In addition damage to the central nervous system and peripheral nervous system can occur from chronic alcohol abuse.

Complexity Assessment

A succession of steadily more powerful and flexible computing devices were constructed in the 1930s and 1940s , gradually adding the key features that are seen in modern computers .

(0)

More powerful and simpler computers were made in the 1930s and 1940s.

(3)

0: Most Complex 4: Most Simple

It is a transportation , commercial , and manufacturing centre , and has numerous industrial companies , principally geared towards shipbuilding .

(2)

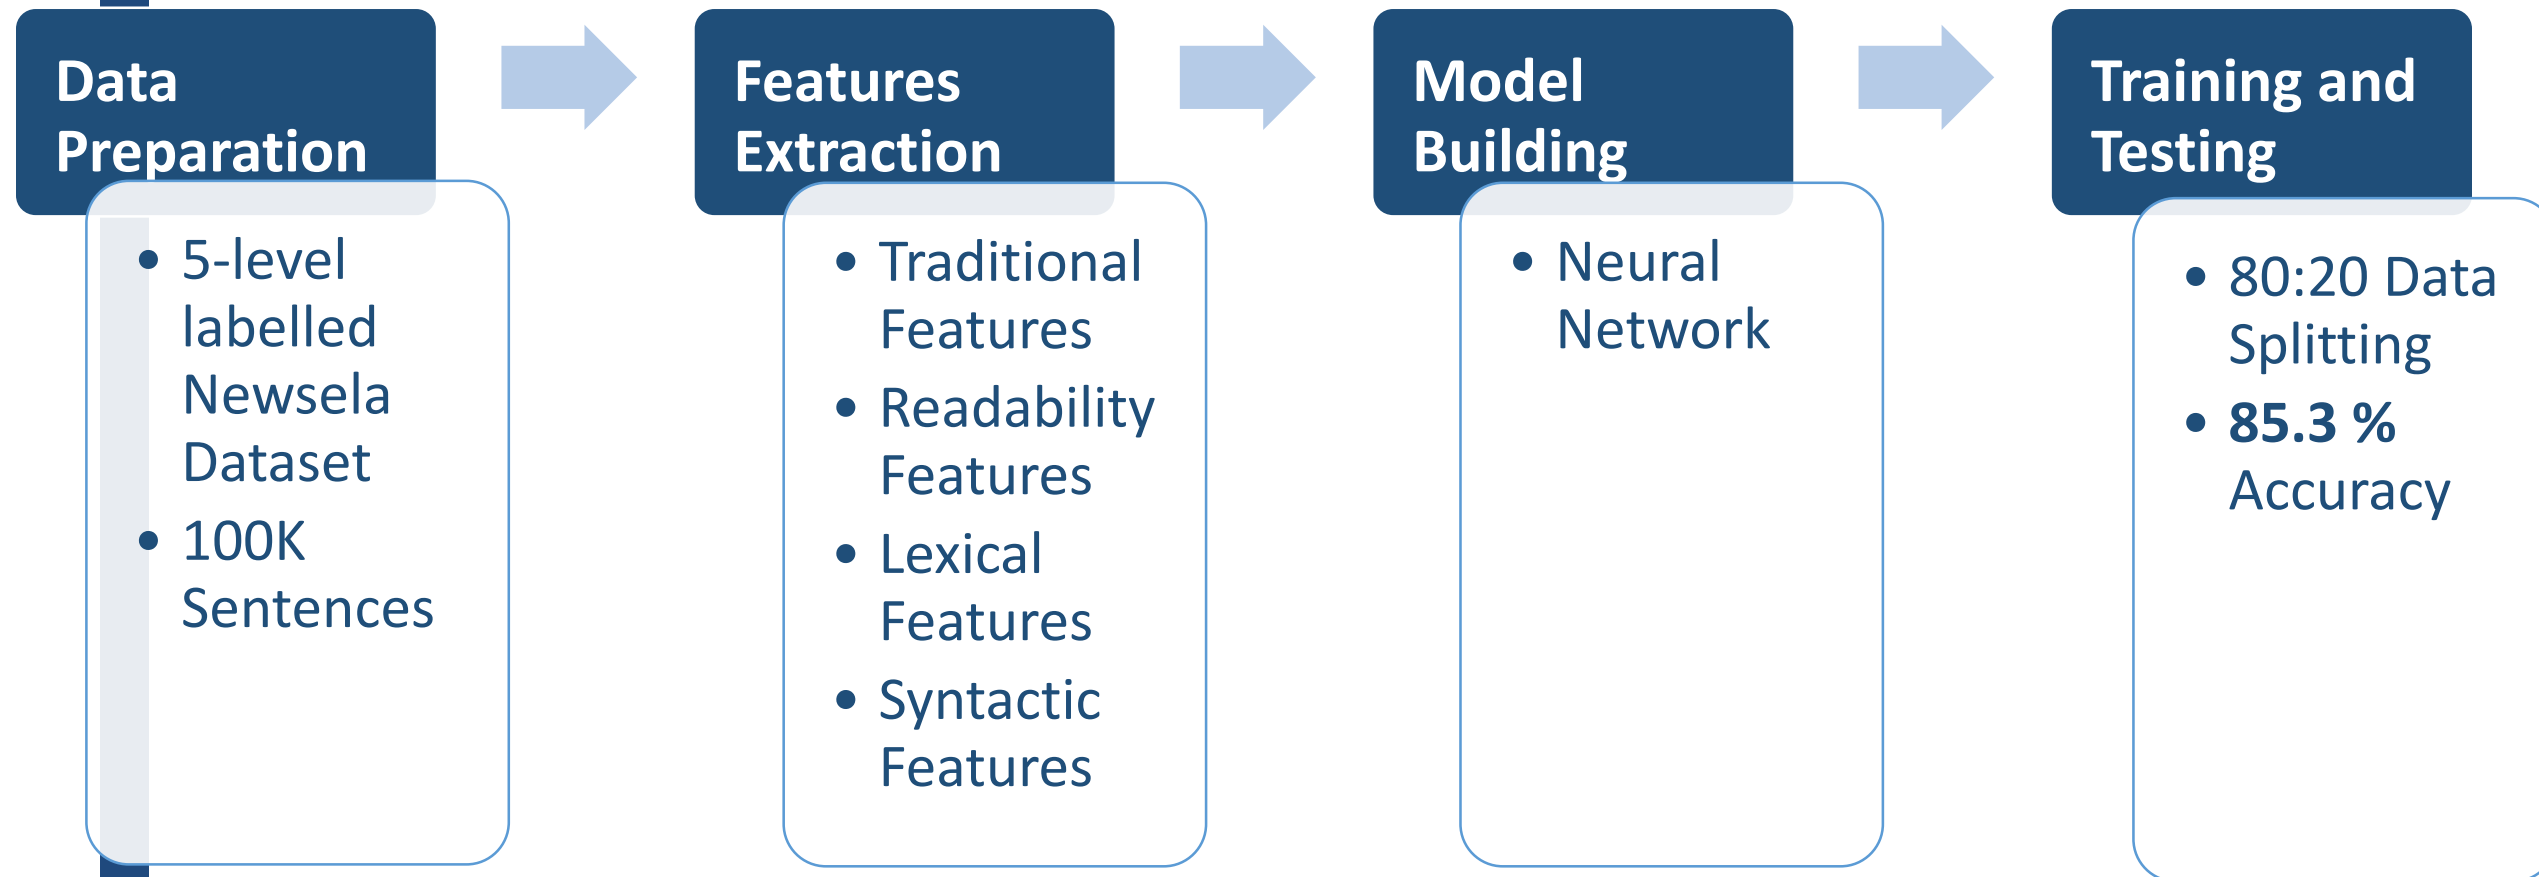

It is a transportation , business and manufacturing centre.

(4)

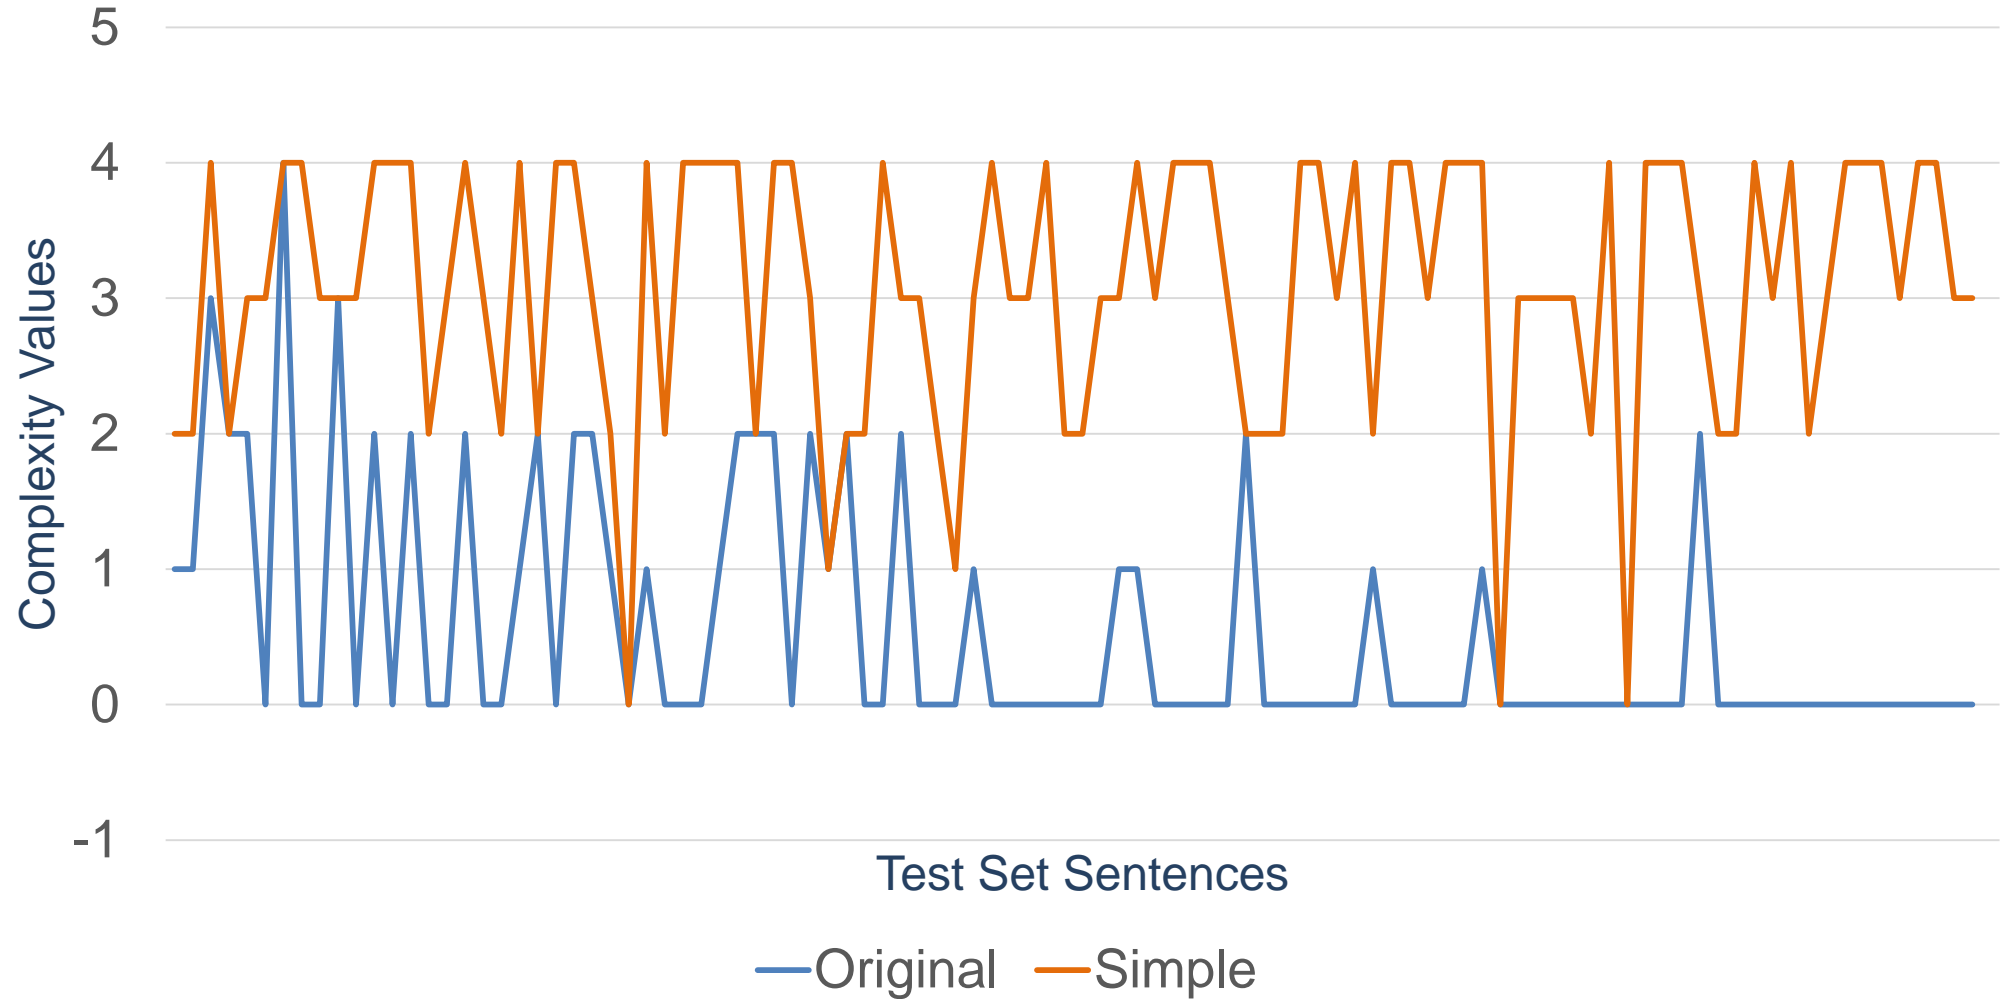

0: Most Complex 4: Most Simple
